Statistics on the insurance firms and insurance intermediaries operating in the Estonian market can be found from the website of the European Insurance and Occupational Pensions Authority (EIOPA). The statistics show the consolidated Solvency II data for insurance firms by country and are published once a quarter.

Finantsinspektsioon also publishes brief quarterly reviews of the state of and developments in the life and non-life insurance sectors.

More detail on trends and developments in the life insurers, non-life insurers and insurance intermediaries operating in the market is published twice a year in the review of the Estonian financial services market.

The reviews are based on data submitted by market participants.
